Northeastern Illinois is diverse in its land and complex in its political structure. It has some of the most productive farms on earth—also one of the world's greatest cities. It contains 3,714 square miles of land and 38 square miles of water. It is home to 7 million people, organized in more than 1,250 units of government.

In 1957, following a decade of rapid urbanization in the Chicago suburban area, the Illinois General Assembly created the Northeastern Illinois Planning Commission (NIPC) to conduct comprehensive planning for the six-county greater Chicago region.

The Commission is directed to meet the problems of metropolitan growth. It has three statutory charges: conduct research and collect data for planning; assist local government; and prepare comprehensive plans and policies to guide the development of the counties of Cook, DuPage, Kane, Lake, McHenry and Will.

By necessity, regional planning deals with general development policies not local land use detail. NIPC supports and coordinates county and municipal planning. The Commission has advisory powers only and relies upon voluntary compliance with its plans and policies.

EXECUTIVE COMMITTEE

Edgar Vanneman Jr.
President

Frank W. Chesrow
Vice President

Robert G. Biesel
Secretary

Elizabeth J. McLean
Treasurer

Ruth K. Kretschmer
Vice President for Planning and Policy Development

William A. Jaskula
Vice President for Governmental Services

Virginia M. Hayter
Chairman, Areawide Water Quality Steering Committee

Waldemar A. Rakow
Past Commission President

Lawrence B. Christmas
Executive Director

COMMISSIONERS

Appointed by the Governor of Illinois

Robert G. Biesel *Retired President, General American International*

Glenn P. Coburn *Member, Will County Board Supervisor, Frankfort Township*

Donna P. Schiller *Executive Director, Committee on Courts and Justice*

Charlie A. Thurston *Division Vice President, Northern Illinois Gas Company*

Edgar Vanneman Jr. *General Attorney and Assistant Secretary, Brunswick Corporation and Former Mayor, City of Evanston*

Appointed by the Mayor of Chicago

Wilson Frost *Alderman, 34th Ward, Chicago*

Richard F. Mell *Alderman, 33rd Ward, Chicago*

Bernard L. Stone *Alderman, 50th Ward, Chicago*

Martin R. Murphy *Commissioner, Chicago Department of Planning*

Elizabeth J. McLean *First Deputy Commissioner, Chicago Department of Public Works*

Elected by the Assembly of Mayors

Virginia M. Hayter *President, Village of Hoffman Estates*

Frances M. Kuhn *Mayor, City of Woodstock*

Bill Morris *Mayor, City of Waukegan*

Chester J. Rybicki *Mayor, City of Naperville*

Jack B. Williams *Mayor, Village of Franklin Park*

Appointed by the County Board Chairmen

Mildred Casey *Member, Cook County Board of Commissioners*

Frank W. Chesrow *Member, Cook County Board of Commissioners*

Ronald R. Larson *Member, Cook County Board of Commissioners*

Ruth K. Kretschmer *Member, DuPage County Board*

Waldemar A. Rakow *Member, Kane County Board*

Matthew F. Miholic *Member, Lake County Board*

Dean C. Cunat *Member, McHenry County Board*

Charles E. Cain *Member, Will County Board*

Appointed by the Board of the Chicago Transit Authority

Lewis W. Hill *Chairman, Regional Transportation Authority*

Appointed by the Board of the Metropolitan Sanitary District of Greater Chicago

William A. Jaskula *Vice President, Metropolitan Sanitary District of Greater Chicago*

NIPC Data Bulletin 82-2

LABOR FORCE AND UNEMPLOYMENT IN NORTHEASTERN ILLINOIS BY COUNTY, TOWNSHIP, AND MUNICIPALITY, 1980

- includes 1980 Census Data on Occupation, Industry of Employment, Location of Work, Travel to Work, Disability, Available Vehicles, and the Poverty Status, Presence of Children and Labor Force Participation of Women Aged 16 and Over

TABLE OF CONTENTS

TABLE A Number of Employed Persons 16 Years and Older by Occupational Category

TABLE B Number of Employed Persons 16 Years Old and Over by Industry

TABLE C Unemployment, Total and by Sex

TABLE D Labor Force Status of the Population 16 Years and Older by Race

TABLE E Work Location and Travel to Work (Workers 16 Years and Older)

TABLE F Disabilities of the Noninstitutional Population 16 Years and Older, and Vehicles Available to Households

TABLE G Females 16 Years and Over by Labor Force Participation and Presence of Own Children; Families Headed by Female with No Husband Present, by Poverty Status and Presence of Own Children

INTRODUCTION AND ACKNOWLEDGEMENTS

This Data Bulletin presents data from 1980 Census Summary Tape File 3A concerning employment and unemployment, place of work, means of transportation and travel time to work, disabilities, vehicles available, and mothers in the labor force. Data Bulletin 82-1, produced simultaneously, presents data from 1980 Census Summary Tape File 3A concerning income, poverty status, education and school enrollment, ability to speak English, place of birth and of residence in 1975, housing costs in relation to income, and housing units by units in structure.

The choice of data items and units of geography was based on requests which have been made to the Commission, expected availability of data from other sources, and the need for a rapid production schedule.

In each of the seven tables, data for the northeastern Illinois region is presented first, followed by county and township data, then data for municipalities within the region.

Most data items are shown as absolute numbers rather than percentages, ratios, or ranks. This permits the presentation of the maximum amount of actual census information, allowing users to manipulate it to meet their own needs.

Tables and text for this Bulletin were prepared by the Commission's Research Services Department. Computer facilities were provided by the University of Illinois at Chicago, and technical assistance by the Chicago Area Geographic Information Study.

Additional information from the 1980 Census may be obtained in several ways. NIPC has available several publications containing data from Summary Tape File 1. Computer-printed reports are available showing virtually all data from Summary Tape Files 1 and 3 for various geographic units. Special reports showing data from any Summary Tape File that has been released to us can be prepared for anyone, subject to applicable charges. Other sources include the City of Chicago Department of Planning and the Chicago Area Geographic Information Study. Some materials may be available from the U. S. Government Printing Office.

Many public libraries have extensive census data resources. A current list of NIPC publications and data services is available from the Commission on request.

Two final notes of caution: First, these tables are based on a sample of all enumerated individuals and households. This means that all the published data are estimates, not actual counts. You must allow for sampling error in interpreting these figures. Appendix A gives some guidance in this matter. Second, apart from sampling error, census figures could be inaccurate for a variety of reasons including respondent and tabulation error.

Although the Commission is not now aware of any such errors on Summary Tape File 3, some may exist. If you discover an apparent error in these tables or other reports based on census data, please write. Corrections will be published in Census Notes.

TABLE A

The data in Table A relates occupation to place of residence. For example, there are 1,659 individuals aged 16 and older, who live in the Village of Addison and who are employed in executive, administrative or managerial occupations. The abbreviations used for occupational categories in the column headings are defined at the end of the table. These categories are consistent with the Standard Occupational Classifications (SOC) system as issued in 1977 and revised in 1980. The categories are fully defined in PHC80-R3, Classified Index of Industries and Occupations, U. S. Bureau of the Census. A listing of occupations is contained in Summary Tape File 3 Technical Documentation (U. S. Bureau of the Census).

TABLE B

For the most part column heading are self-explanatory. Ag, Min and Constr is an abbreviation for agriculture, forestry, fisheries, mining and construction. "TCU" is the abbreviation for transportation, communication and utilities. "Fin/Ins Rl Est" is finance, insurance and real estate*. Data on employment derived from the 1980 Census may differ somewhat from other 1980 employment estimates for a variety of reasons. First, the 1980 Census data reflect place of residence not place of work. Second, persons holding more than one job will be counted only once, i.e. the 1980 census counts workers not jobs. Third, the 1980 Census data on industry covers all industries including self-employed and government workers. Fourth, the Census presents employment data for the "reference week," the full week prior to April 1, 1980.

TABLE C AND D

Data on labor force status refer to the calendar week prior to the date on which respondents completed the questionnaire or were interviewed by enumerators. For the most part, this reference week was the last week of March 1980. The labor force includes persons 16 years old and over on active duty in the armed forces or in the civilian labor force. The civilian labor force includes all employed and unemployed civilians aged 16 and

*A list of the specific industries in each category is contained in Summary Tape File 3 Technical Documentation (U. S. Census Bureau)

over. An individual was considered to be employed if during the reference week he or she was at work or temporarily absent from a job due to illness, weather, industrial dispute, vacation or other personal reasons. The unemployed include individuals 16 years and older who neither had a job nor were temporarily absent and who were available to accept a job and looking for work during the past four weeks. Individuals who didn't work during the reference week but were waiting to be called back to a job from which they had been laid off were counted as unemployed, as well. Individuals aged 16 and over who were not in the labor force include students, housewives, retired workers, seasonal workers during their "off" season, inmates of institutions, disabled persons doing incidental (less than 15 hours) unpaid family work, and the so-called discouraged workers. The unemployment rate shown in Table C is the civilian rate of unemployment.

TABLE E

The tabulation for location of work is based on approximately half of the sample. The locations shown reflect the place where individuals worked the most hours during the reference week. Individuals who worked in a variety of places during the week were asked to report the location of their central office. The means of transportation of work columns show the principal means of travel during the reference week. Public transportation is defined as buses, railroads, rapid transit and taxicabs. "Other" means include motorcycles, bicycles and various write-in responses. Travel time to work information was also based on only half of the sample. The times shown in Table E reflect a one-way trip. Mean travel time is calculated as aggregate travel time of all workers divided by total number of workers. It thus includes persons working at home who have an implicit zero travel time.

TABLE F

The non-institutional population includes all individuals except those who are inmates of mental hospitals, homes for the aged, correctional institutions, and other institutions. Individuals with a work disability are those with a health condition (a mental or physical problem which has lasted at least six months) that either limits the kind or amount of work or totally prevents working at a job or business. Persons with a health condition that makes it difficult or impossible to use public transportation are "transport disabled." "Vehicles available" include vans, and light trucks, as well as automobiles. "Available" isn't the same as "owned."

TABLE G

Poverty status is determined by comparing 1979 household income to poverty income level threshold. This threshold varies with family size, number of children and age of householder. the concept of income as used by the Bureau of the Census excludes in-kind government transfer payments such as food stamps, medicaid, public housing. It also excludes health insurance premiums paid by employers, services obtained from ownership of assets, income from the sale of property, withdrawal of bank deposits, gifts and loan proceeds. Selected poverty income levels are shown below:

Size of Unit	Related Children Under 18 Years			
	None	2	4	6
Unrelated Individual Under 65 Years	$ 3,774			
65 Years and Over	3,479			
2 Persons with Householder Under 65 Years	4,858			
65 Years and Over	4,385			
3 Persons	5,674	5,844		
4 Persons	7,482	7,356		
6 Persons	10,378	10,205	9,693	
8 Persons	13,356	13,231	12,717	11,936

1980 CENSUS DATA FROM SUMMARY TAPE FILE 3 — REPORT PREPARED BY NORTHEASTERN ILLINOIS PLANNING COMMISSION
THESE DATA ARE SUBJECT TO SAMPLING ERROR AS DESCRIBED IN APPENDIX A. FOR DEFINITIONS SEE TEXT AND END OF THIS TABLE.

OCCUPATIONS IN SUBCATEGORIES ARE REPRESENTED BY LETTERS AS BELOW:

A = EXECUTIVE,ADMINISTRATIVE AND MANAGERIAL OCCUPATIONS
B = PROFESSIONAL SPECIALITY OCCUPATIONS
C = TECHNICIANS AND RELATED SUPPORT OCCUPATIONS
D = SALES OCCUPATIONS
E = ADMINISTRATIVE SUPPORT AND CLERICAL OCCUPATIONS
F = PRIVATE HOUSEHOLD OCCUPATIONS
G = PROTECTIVE SERVICE OCCUPATIONS
H = OTHER SERVICE OCCUPATIONS
I = FARMING,FORESTRY AND FISHING OCCUPATIONS
J = PRECISION PRODUCTION, CRAFT AND REPAIR OCCUPATIONS
K = MACHINE OPERATORS,ASSEMBLERS AND INSPECTORS.
L = TRANSPORTATION AND MATERIAL MOVING OCCUPATIONS
M = HANDLERS,EQUIPMENT CLEANERS AND LABORERS.

APPENDIX A

ESTIMATING THE IMPACT OF SAMPLING ERROR

All of the data shown in the preceding tables are based on the "long questionnaire," which was administered to only a sample of all households (and a sample of persons in group quarters). Because they are based on a sample, data shown in the tables should be considered the Census Bureau's estimates of the actual figures that would have resulted from a complete survey.

Each estimate is subject to sampling error, which can be quite substantial. The purpose of this Appendix is to show how you can estimate the potential impact of this error.

Sampling error is described in terms of the probability that the estimate obtained from the sample is within a given range of the actual value. For example, we might say that a value of 200 shown in one of the preceding tables has a 95% probability of being within +/- 20 of the actual. This is approximately equivalent to saying that we are "95% certain" that the actual value is between 180 and 220.

In order to estimate this confidence interval, we first estimate the standard error, and then multiply it by the appropriate factor, depending on what probability of being wrong we are willing to accept. For a 95% confidence interval we use twice the standard error; for a 99% level we use three times the standard error.

An Example

In Barrington Township, Table F in Data Bulletin 82-1 shows that 560 out of the total population of 9,600 are persons who, five years ago, lived in Chicago. We estimate the standard error through the formula:

$$Se\ (\hat{Y}) = \sqrt{5\hat{Y}\ (1 - \frac{\hat{Y}}{N})}$$

in which $\hat{Y}$ = estimated value shown in the table (560)

N = total population of area (9600)

$Se\ (\hat{Y})$ = preliminary estimate of the standard error of the estimate

Applying the formula to figures for Barrington Township

$$Se\ (\hat{Y}) = \sqrt{5 * 560 * (1 - \frac{560}{9600})}$$

$$Se\ (\hat{Y}) = \sqrt{2637}$$

$$Se\ (\hat{Y}) = 51.35$$

So our preliminary estimate of the standard error in this case is 51.35. Note that, since we were considering a population value, we used the total population of the township. Had we been considering a housing unit value, we would have used the total number of housing units in the township. Both the population and housing unit counts are shown in Appendix Table 1. (If you don't want to perform the calculations required in the formula, you can use Appendix Table 3 to approximate the result.)

Appendix Table 1 also shows the sampling rates applied in each area shown in this Data Bulletin. In Barrington Township, 25.9% of the population was sampled. Appendix Table 2 shows the standard error adjustment factor which applies in this case. For Nativity and Place of Birth figures in areas with sampling rates between 19% and 33%, the adjustment factor is 3.4. (This is higher than rates for other characteristics because not all sample questionnaires were coded for this item). Our adjusted standard error, then, is 3.4 * 51.35 = 175. To obtain a 95% confidence interval, we double this value (for a 99% interval we would triple it). Since 175 * 2 = 350, our 95% confidence interval is the range (560 - 350) through (560 + 350), or from 210 through 910. We are thus "95% certain" that the actual number of people in Barrington Township who lived in Chicago five years earlier is between 210 and 910. Our best estimate is still the 560 shown on the table, but we are aware that the actual number may well be quite a bit different.

APPENDIX TABLE 1: 100% COUNTS AND SAMPLING RATES FOR POPULATION AND HOUSING UNITS

APPENDIX TABLE 2: Standard Error Adjustment Factors for Illinois

	Percent of Persons or Housing Units in Sample[1]		
POPULATION (cont.)	Less than 19%	19% to 33%	More Than 33%
School Enrollment and Years of School Completed by Labor Force Status	1.2	0.9	0.5
Labor Force Status	1.2	0.9	0.5
Hours Worked Per Week and Weeks Worked in 1979	1.1	0.8	0.5
Unemployment in 1979	1.2	0.9	0.5
Industry and Occupation	1.1	0.9	0.5
Class of Worker	1.3	1.0	0.5
Household Income	1.1	0.9	0.5
Income Type	1.2	0.9	0.5
Family Income	1.1	0.9	0.5
Unrelated Individual Income	1.1	0.8	0.5
Workers in Family	1.2	1.0	0.5
Poverty Status - Family	1.0	0.8	0.5
Poverty Status - Persons	2.0	1.5	0.9
Poverty Status - Unrelated Individuals	1.1	0.8	0.5
HOUSING			
Occupancy and Vacancy Status	1.1	0.9	0.5
Tenure	1.1	0.9	0.5
Units in Structure	1.1	1.1	0.6
Stories in Structure	1.0	0.9	0.6
Passenger Elevator	1.0	0.9	0.5

APPENDIX TABLE 2: Standard Error Adjustment Factors for Illinois

HOUSING (cont.)	Percent of Persons or Housing Units in Sample[1]		
	Less than 19%	19% to 33%	More Than 33%
Source of Water	1.0	0.8	0.5
Sewage Disposal	1.0	1.0	0.6
Year Structure Built	1.1	0.8	0.5
Year Householder Moved into Housing Unit	1.1	0.9	0.5
Heating Equipment and Fuel	1.2	0.9	0.5
Kitchen Facilities	1.1	0.8	0.5
Number of Bedrooms or Bathrooms	1.1	0.9	0.5
Telephone in Housing Unit	1.1	0.9	0.5
Air Conditioning	1.1	0.9	0.5
Vehicles Available	1.1	0.9	0.5
Gross Rent	1.1	0.9	0.5
Inclusion of Utilities in Rent	1.1	0.9	0.5
Gross Rent as Percentage of Income	1.1	0.8	0.5
Mortgage Status and Selected Monthly Owner Cost	1.1	0.9	0.5
Selected Monthly Owner Cost as Percentage of Income	1.1	0.9	0.5
Units with Complete Plumbing Facilities for Exclusive Use			
Built 1939 or Earlier	1.1	0.8	0.5
With 1.01 Persons Per Room or More	1.1	0.8	0.5
Lacking Central Heating Equipment	1.1	0.8	0.5

Appendix Table 3: Unadjusted Standard Errors for Estimated Totals
(Based on a 1-in-6 Simple Random Sample)
